Section 5.3 Forecasting of Net Delivered Energy

- (a) The Seller shall use its reasonable efforts to predict the availability of the wind at the Site using such equipment as is available within the Complex and on that basis:
 - (i) not later than twenty four (24) hours prior to the beginning of each Day following the Commercial Operations Date, the Seller shall notify the Purchaser (or revise any such information previously given) of the estimated net output of the Complex in MW which the Complex is likely to generate for each hour of such Day;

The Seller shall consult the System Operator before developing the Scheduled Outage programme and shall carry out Scheduled Outage in accordance with the Scheduled Outage programme approved by the System Operator. To the extent possible, the Scheduled Outages of individual WTGs shall be phased for minimising the reduction in the total available generation capacity of the Complex.

Section 5.6 Maintenance Outages

The Seller shall advise the Purchaser of the need for any Maintenance Outages, together with the proposed commencement date and estimated duration of the work to be undertaken. The Purchaser shall advise the Seller of the periods during which such Maintenance Outage may be undertaken, such periods to be reasonable in light of the Purchaser's requirements for Net Delivered Energy and, the necessity for the Maintenance Outage. The Seller shall, subject to the Technical Limits, Prudent Utility Practices and Prudent

Electrical Practices, use reasonable endeavours to carry out the Maintenance Outage during the times provided by the Purchaser in accordance with this Section 5.6.

Section 5.12 Tampering with the Metering System, the Anemometry System and the Complex Monitoring System

The Seller shall not tamper, and shall ensure that its employees, Contractors or subcontractors of any tier do not tamper, with the Metering System, the Anemometry System or the Complex Monitoring System. Should the Seller breach the foregoing covenant, the Seller shall:

- (a) take all remediable action reasonably acceptable to the Purchaser to ensure that such tampering does not reoccur, including the development or addition of security systems, and
- (b) compensate the Purchaser for two (2) times the amount or reasonably estimated amount of any overpayment by the Purchaser resulting from such tampering, which for purposes of such determination shall be assumed to have occurred immediately after the last known accurate test of the Metering System, the Anemometry System or the Complex Monitoring System (unless the Seller demonstrates to the reasonable satisfaction of the Purchaser, or it is resolved under Article XVIII, that the tampering did not occur until a later date, in which case such later date shall be used as the reference date for determination of such amount). The Parties have agreed that the amount of such compensation constitutes liquidated damages to the Purchaser for any such breach and, subject to Sections [16.1\(h\)](#) and Section [16.4](#), shall be the sole remedy of the Purchaser therefor. The Seller waives, to the fullest extent permitted by law, any claim that such compensation is void as a penalty.

Section 5.13 Cessation of Operation of the Complex

- (a) If, after the Commercial Operations Date, without the prior written consent of the Purchaser, the Seller shall have ceased to operate the Complex for a period of forty eight (48) consecutive hours other than because of :
 - (i) a Force Majeure Event,
 - (ii) a Scheduled Outage,
 - (iii) a Maintenance Outage,
 - (iv) a Forced Outage or a Partial Forced Outage,
 - (v) a Non-Project Event,

- (vii) any act or omission of the Purchaser and/or the Grid System Operator that effectively prevents the Seller or its Contractors from operating the Complex.

then the Purchaser shall be entitled to (A) enter the Complex and operate it until the Seller demonstrates, to the reasonable satisfaction of the Purchaser, that the Seller can and will resume normal operation of the Complex or until the Lenders shall have exercised their rights in accordance with the Financing Documents including the EPA Direct Agreement to enter the Complex and operate it, and (B) as soon as is practicable, send written notice of such entry to the Agent (as defined in Section [16.5](#)) in accordance with the procedure set forth in Section 16.5.

During any period that the Purchaser shall operate the Complex pursuant to this Section, the Purchaser shall:

- (i) operate the Complex within the Technical Limits and in accordance with Laws of Pakistan, Prudent Utility Practices and Prudent Electrical Practices,
 - (ii) bear all costs of such operation, and
 - (iii) pay to the Seller the Loan Repayment Component and the Interest Charges Component of the applicable Energy Price, multiplied by the Monthly Benchmark Energy prorated on daily basis, provided, however, that the Seller shall not be entitled to any payment during such period to which it would not be entitled if it itself had been operating the Complex.
- (b) Notwithstanding the foregoing and any other provision in this Agreement to the contrary, if any insurance coverage that was obtained by the Seller and is set forth in Schedule 8 is not available or in effect during any time that the Purchaser is entitled to operate the Complex pursuant to this Section 5.13 or does not cover such operation, then the Purchaser shall not enter or operate the Complex, and shall immediately cease operation and promptly quit possession of the Complex, as the case may be, unless and until such time that the Purchaser either:
- (i) obtains, and thereafter continuously maintains, and provides written evidence to the Seller and the Agent of the procurement of, the policies of insurance set forth in Schedule 8,
 - (A) with terms and conditions which in all material respects (including deductibles, endorsements, terms for reinsurance and security in favor of the Lenders) conform to the terms and conditions of the policies of insurance of such type which had been most recently procured by the Seller, and

- (B) with an internationally reputable insurer(s) with a rating(s) of not less than the rating of the insurer that provided policies of insurance which had been most recently procured by the Seller;
or
 - (ii) agrees in writing to defend, indemnify and hold the Seller harmless from and against any loss or damage sustained as a result of an event that occurred during the period of the Purchaser's operation of the Complex to the extent that such loss or damage would have been covered by the insurance set forth in Schedule 8 that the Seller most recently had in effect prior to the Purchaser's operation of the Complex, including but not limited to loss or damage to the Complex and loss or damage resulting from third Party claims.
- (c) In the event that, at any time, the Purchaser obtains insurance pursuant to this Section 5.13,
 - (i) the Seller and the Lenders (so long as they shall have an insurable interest in the Complex) shall be named as joint insureds and the Lenders (so long as they shall have an insurable interest in the Complex) shall be named as the sole loss payee on any such insurance, and
 - (ii) the Seller shall reimburse the Purchaser for the actual out of pocket costs of such insurance and all reasonable administrative costs incurred by the Purchaser in procuring such insurance.
- (d) Notwithstanding any other provision of this Agreement to the contrary, the Purchaser shall indemnify, defend and hold harmless the Seller from any loss or damage to the Complex incurred or sustained by the Seller by reason of the Purchaser's negligence or willful misconduct in the operation of the Complex during such period, but only to the extent that such loss or damage is not covered by the Seller's insurance.

Section 5.14 Free of Liens

The Seller shall at all times keep the Complex free and clear of all Liens other than those in favour of the Lenders as permitted under Section [19.9](#) and those not affecting the Seller to perform its obligations under this Agreement.

Section 5.15 Forced Outages or Partial Forced Outages

The Seller shall notify the Purchaser as soon as practicable after the occurrence of a Forced Outage or Partial Forced Outage which notice shall set out the likely cause thereof (if known at the time), together with an estimated time frame within which such Forced Outage or Partial Forced Outage is likely to end on the basis of information available to the Seller at the time. The

STANDARD ENERGY PURCHASE AGREEMENT

Seller shall, periodically, update any notice provided under this Section 5.15 on the basis of further information that may become available to the Seller from time to time.

ARTICLE VI
INTERCONNECTION FACILITIES

Section 6.1 Construction of the Seller Interconnection Facilities

- (a) The Seller shall carry out or cause to be carried out, at its cost, the Seller Interconnection Works with all proper skill and care and in all material respects in accordance with:
- (i) this Agreement;
 - (ii) the Laws of Pakistan and the applicable Seller Consents;
 - (iii) the Grid Code;
 - (iv) the Generation Licence;
 - (v) Prudent Utility Practices and Prudent Electrical Practices; and
 - (vi) Schedule [3](#).

so that the Seller Interconnection Facilities can be reasonably expected to provide a useful life of not less than the Term.

- (b) The design, scope and specification of the Seller Interconnection Works are set out in Schedule 3. The Seller shall give the Purchaser in the Construction Reports not less than thirty (30) Days' prior notice of the date from which it or its Contractor will commence the Seller Interconnection Works and shall complete the Seller Interconnection Works in accordance with the Interconnection Works Schedule. Subject to Section [5.1](#) of the Implementation Agreement, the Seller shall procure (or cause Contractors to procure) all Seller Consents necessary for carrying out the Seller Interconnection Works.

Field Code Changed

Section 6.2 Purchaser Interconnection Facilities

The Purchaser shall design, construct, finance and complete (excluding installation of the Metering System, as provided in Section 7.2) and commission the Purchaser Interconnection Facilities in accordance with Schedule 3 of this Agreement, Prudent Utility Practices and Prudent Electrical Practices such that the Purchaser Interconnection Facilities can be expected to have a useful life of not less than the Term.

Section 6.3 Data Necessary for Construction of Interconnection Facilities

The Seller and the Purchaser shall exchange all information within the time period provided therefor in the Interconnection Works Schedule. Within ten (10) Days of a request by either Party, the requested Party shall provide all additional information reasonably requested by the requesting Party in

connection with the execution of its Interconnection Works. The timely provision by the Seller of such supplemental or additional information shall not modify the obligation of the Purchaser to complete the Purchaser Interconnection Works as required herein.

Section 6.4 Granting of Easements and Rights-of-Way

- (a) If required, the Seller shall grant to the Purchaser easements and rights of way across the Site necessary to carry out and complete the Purchaser Interconnection Works and to operate, maintain, replace and/or remove the Purchaser Interconnection Facilities during the term of this Agreement. The easements and rights of way shall grant to the Purchaser adequate and continuing rights for the purposes set forth in this Section 6.4 to enter the Site subject only to the Purchaser giving reasonable prior notice to the Seller. Upon request by the Purchaser, the Seller shall execute such easements, rights of way, licenses and other documents, each in recordable form, as the Purchaser may reasonably require to record any and all of the above rights. Consideration for such rights shall be the execution of this Agreement and no other consideration shall be required. Insofar as it shall be consistent with the Laws of Pakistan and the Site Sub-lease, all easements, rights of way, licenses and other rights hereunder shall survive the termination or expiration of this Agreement. Revocable licenses, if any, granted to the Purchaser pursuant to this Section 6.4 shall include such reasonable further term, not to exceed ninety (90) Days beyond the Term, to allow the Purchaser to remove the Purchaser Interconnection Facilities. When on Site, the Purchaser shall comply with all reasonable instructions of the Seller and its Contractors relating to the carrying out of any work on the Site and, notwithstanding any other provision in this Agreement to the contrary, shall indemnify and hold the Seller and the Contractors harmless from any loss or damage sustained by virtue of the Purchaser's negligence or willful misconduct in the exercise of rights pursuant to this Section 6.4, but only to the extent that such loss or damage is not covered by insurance.
- (b) Except as provided in Section 6.4(a), the Purchaser shall be responsible for obtaining all rights-of-way, easements and other real or personal property interests necessary to construct, operate and maintain the Purchaser Interconnection Facilities during the Term.

Section 6.5 Construction and Completion of Purchaser Interconnection Facilities

- (a) On or after the Effective Date, the Seller shall give to the Purchaser not less than [] months prior written notice of the Scheduled Commercial Operations Date then anticipated by the Seller. Following the receipt of such notice, the Purchaser shall commence the final design of the Purchaser Interconnection Facilities. Thereafter, the Purchaser shall give the Seller reports on the progress of the Purchaser Interconnection Works as appropriate until the same

are completed. The Purchaser shall complete the Purchaser Interconnection Works so as to be able to accept Net Delivered Energy at the Interconnection Point to carry out the Commissioning Tests no later than one hundred eighty (180) days prior to the Scheduled Commercial Operations Date provided to the Purchaser pursuant to the first sentence of this Section 6.5(a); provided, however, that such completion date shall be extended on a Day-for-Day basis for any changes in the Scheduled Commercial Operations Date and to the extent necessary because of the occurrence of any of the following:

- (i) the failure by the Seller to execute, in sufficient time for the Purchaser to complete the Purchaser Interconnection Facilities, such easements, rights-of-way, licenses and other documents, each in recordable form, as the Purchaser may reasonably require to record the deeds, easements, rights-of-way and licenses granted pursuant to Section 6.4;
- (ii) the failure by the Seller to provide the Purchaser, on a timely basis, with any technical data not included in Schedule 3 available to the Seller and requested by the Purchaser relating to the Complex reasonably necessary for the Purchaser to undertake the design, construction, installation, commissioning, maintenance and operation of the Purchaser Interconnection Facilities;
- (iii) a Force Majeure Event that materially and adversely affects the Purchaser's ability to perform its obligations in accordance with this Article VI;
- (iv) any other failure by the Seller to perform in accordance with this Agreement that materially and adversely affects the Purchaser's ability to perform its obligations in accordance with this Article VI;

provided, however, that no extension shall be granted to the Purchaser to the extent that such failure or delay would have nevertheless been experienced by the Purchaser.

- (b) If the Purchaser has not completed, commissioned and energized the Purchaser Interconnection Facilities by the date required in Section 6.5(a), as such date may be extended in accordance with this Section 6.5(a)(i), (ii), (iii) or (iv), and such delay causes a delay in the Commissioning of the Complex, the Required Commercial Operations Date shall be extended Day-for-Day until the date on which the Purchaser Interconnection Works are completed. In addition, if the Purchaser has not completed the Purchaser Interconnection Works by the date which is fifteen (15) Days following the date by which the Power Purchaser Interconnection facilities were required to be completed in accordance with Section 6.5(a) and such delay causes a delay in Commissioning of the Complex, as certified by the Engineer, then the Purchaser shall pay to the Seller Monthly, in arrears, an amount equal to

Carrying Costs, plus fifty percent (50%) of the Insurance Component, plus fifty percent (50%) of the Fixed O&M Component (Local), plus fifty percent (50%) of the Fixed O&M Component (Foreign) of the Reference Tariff, multiplied by the Monthly Benchmark Energy (prorated on Daily basis for such period). The Return on Equity Component during the extended construction period on account of such delay shall be accrued and payable through the Term by updating of the Reference Tariff Table in Schedule 1 on at the time of the Commercial Operations Date.

Such payments shall commence on the Scheduled Commercial Operations Date prevailing immediately prior to such delay and shall continue until the earlier of:

- (i) the end of a period equal to the period of delay in completing the Purchaser Interconnection Facilities and
- (ii) the completion of the first attempted Commissioning Tests (whether successfully completed or not);

provided, however, that the payment of such amounts by the Purchaser and extension of the Required Commercial Operations Date shall be subject to issuance by the Engineer of the Certificate of Readiness for Energization of the Seller Interconnection Facilities and a simultaneous certificate that the delay caused by the Purchaser has caused the then scheduled Commissioning Tests to be delayed. In addition to the payment of the Carrying Costs plus fifty percent (50%) of the Insurance Component plus fifty percent (50%) of the Fixed O&M Component (Local) and fifty percent (50%) of the Fixed O&M Component (Foreign), of the Reference Tariff, multiplied by the Monthly Benchmark Energy (prorated on Daily basis for such period), if the delay by the Purchaser in completing the Purchaser Interconnection Facilities continues beyond the sixtieth (60th) Day following the date in Section 6.5(a) and the Engineer has certified that the delay caused by the Purchaser would likely cause the then scheduled Commissioning Tests to be delayed as confirmed by Engineer pursuant to the two certificates mentioned in this Section, the Purchaser shall also be required to pay the principal debt payments when due under the Financing Documents; provided that such principal debt payments made by the Purchaser under this Section 6.5 shall be excluded in the determination or calculation of the Tariff at the Commercial Operations Date to be paid by the Purchaser hereunder. Such principal debt payment by the Purchaser shall commence on the later of thirty (30) Days following receipt of an invoice therefor or the due date for such payment under the Financing Documents (but in no event earlier than the sixtieth (60th) Day following the Scheduled Commercial Operations Date prevailing immediately prior to such delay), which invoice shall be signed by the Lenders or the Agent certifying the amount shown therein to be correct and stating the due date for such payment of principal debt under the Financing Documents. Such payments

shall continue until the earlier of:

- (i) end of the period equal to the period of delay or deferral of any Commissioning Test and
 - (ii) the completion of the first attempted Commissioning Tests (whether successfully completed or not).
- (c) The Purchaser shall have no obligation to make the payments provided in this Section 6.5 if and to the extent that the delay in the Commissioning Tests would nevertheless have occurred regardless of the Purchaser's delay or deferral of such tests. If payments by the Purchaser under this Section 6.5 shall have commenced or the obligation for such payments shall have accrued, the Complex shall be tested at the first available opportunity thereafter. Except as provided in this Section 6.5, Section 8.1, Section 15.6 and Section 16.2(h), the Seller shall be entitled to no other compensation or claim for damages under this Agreement as a result of delay in the completion of the Purchaser Interconnection Facilities or deferral of the Commissioning Tests by the Purchaser.

Section 6.6 Protective Devices

- (a) As part of the Seller Interconnection Works, the Seller shall install protective relays in accordance with Schedule 3. The Seller shall maintain the settings of all relays in the Complex at the levels agreed by the Seller and the Purchaser, and the Seller shall not change such settings without the prior consent of the Purchaser.
- (b) The Seller and the Purchaser shall verify the operation of the protection devices in accordance with the testing programme set out in Schedule 3.
- (c) Subject to giving the Seller reasonable notice, the Purchaser may require the Seller to modify or expand the requirements for protective devices. Following approval by the Purchaser of the costs of such modification or expansion, the Seller shall perform such modification or expansion. Such work shall be completed within a reasonable time under the circumstances. To the extent that any modification or expansion of the requirements for protective devices causes the Seller a delay in Commissioning the Complex, as certified by the Engineer, the Required Commercial Operations Date shall be extended Day-for-Day to account for such delay. The Purchaser shall be notified in advance of, and shall have the right to observe, all work on the protective devices
- (d) Following completion of such modification or expansion work, the Seller shall provide the Purchaser with an invoice for the reasonable and necessary costs therefor, together with supporting documentation with respect thereto. The Purchaser shall pay the Seller the required amount within thirty (30) Days after delivery of the invoice by the Seller.

- (e) Each Party shall notify the other Party in advance of any changes to either the Complex or the Grid System that may affect the proper co-ordination of protective devices between the two systems, and neither Party shall make any such changes to either the Complex or the Grid System, as the case may be, without the other Party's approval.

Section 6.7 Testing

The Parties shall cooperate in testing the Purchaser Interconnection Facilities and the Seller Interconnection Facilities in accordance with the schedule developed by the Operating Committee (but in no event later than the time provided in Section 6.5) and at such other times thereafter as either Party may reasonably require.

ARTICLE VII
METERING AND METEOROLOGY

Section 7.1 Metering Systems

- (a) The Parties acknowledge that for the purposes of determining Net Delivered Energy, the Metering System and Back-Up Metering System are required prior to the delivery of any Net Delivered Energy to the Interconnection Point for sale hereunder.
- (b) Not later than three hundred (300) Days prior to the then Scheduled Commercial Operations Date, the Purchaser shall have procured at its expense and shall provide to the Seller the Metering System. The Purchaser shall ensure that such Metering System shall be in good working order in accordance with the approved Purchaser specifications. If the Purchaser has not provided the Metering System to the Seller by such date, the Seller may procure the Metering System (with specifications stated in Schedule 6 and invoice the Purchaser for the reasonable costs thereof as a Pass-Through Item. The Seller shall procure and install an electronic recorder or any other state-of-the-art recording equipment, approved by the Purchaser, capable of making continuous recordings of the Net Delivered Energy, which after procurement and installation by the Seller shall constitute a part of the Metering System. Such Net Delivered Energy shall be measured and recorded on appropriate magnetic media or equivalent which recording shall be used to compute Energy Payments.

Section 7.2 Installation of Metering Systems

- (a) The Seller shall at its expense install the Metering System and shall procure and install the Back-Up Metering System (in accordance with Schedule 3) which are consistent with the requirements in Schedule 6 and shall:
 - (i) prior to the delivery of any Net Delivered Energy from the Complex to the Interconnection Point for which payment is required to be made by the Purchaser hereunder, install, test and commission, and calibrate or recalibrate as necessary, the Metering System and the Back-Up Metering System at the higher voltage side of and as close as possible to the Interconnection Point;
 - (ii) secure the Metering System and Back-Up Metering System in a locked and walled enclosure; and
 - (iii) ensure that it or its Contractors, employees, agents and invitees (other than the Purchaser), and others for whom the Seller is responsible shall not tamper with the Metering System or the Back-Up Metering System.

- (b) When the Metering System has been shown by testing in accordance with Section 7.3(a) to satisfy the required level of accuracy of measurement, the Seller shall transfer possession (or if the Seller has procured the Metering System, subject to payment therefor as provided herein, ownership) of such Metering System to the Purchaser, and the Purchaser shall thereafter be responsible for the ownership and maintenance of the Metering System. For the avoidance of doubt, the Purchaser shall not read, test, adjust, repair or replace the Metering System without giving two Days notice to the Seller and without presence of the Seller. The Purchaser shall be provided with not less than forty-eight (48) hours notice of and have the right to be present at and to observe the installation and all testing of the Metering System. The Seller shall grant to the Purchaser all necessary easements and rights-of-way for the location of the Metering System on the Site and for ingress and egress thereto and therefrom.

Section 7.3 Testing of Metering System

- (a) The Seller shall test the accuracy and calibrate or recalibrate, if necessary, of each of the Metering System and the Back-Up Metering System in accordance with Schedule 6 not later than the earlier of (i) thirty (30) Days after the relevant Metering System or Back-Up Metering System is installed by the Seller or (ii) the Day before the date of first delivery to the Interconnection Point of any Net Delivered Energy from the Complex, as the case may be, that is to be paid for by the Purchaser pursuant to this Agreement. Thereafter, the Purchaser and the Seller shall test the accuracy of each of the Metering System at any time that the readings of Net Delivered Energy from the Metering System and the Back-Up Metering System differ by an amount greater than one-half of one percent (0.5%). In such an event, the Purchaser and the Seller together shall test the accuracy of the Metering System and recalibrate the Metering System, if necessary. The Purchaser shall give the Seller not less than forty-eight (48) hours notice of such tests and the Seller shall have the right to witness such tests, as well as any inspection of the Metering System or adjustment thereof; provided that if the Seller's representative fails to attend such tests, inspection or adjustment, such right shall have been waived with respect to such test, inspection and/or adjustment.
- (b) Following testing and any recalibration, if necessary, and return to service of the Metering System pursuant to Section 7.3(a), above, the Seller shall if necessary test the accuracy of the relevant Back-Up Metering System and recalibrate the relevant Back-Up Metering System. The Seller shall give the Purchaser no less than forty-eight (48) hours notice of such tests and the Purchaser shall have the right to witness such tests, as well as any inspection of the Back-Up Metering System or adjustment thereof; provided that if the Purchaser fails to attend such tests, inspection or adjustment such right shall have been waived with respect to such test, inspection and/or adjustment.

- (c) In addition to the tests to be carried out pursuant to Section 7.3(a), if the Seller believes that the Metering System is inaccurate it shall inform the Purchaser, requesting that the Metering System's accuracy be tested, and the Purchaser and the Seller shall test the Metering System within a reasonable time. If the Purchaser believes that the Metering System is inaccurate it shall inform the Seller, and the Purchaser and the Seller shall test the Metering System within a reasonable time. The Purchaser shall give the Seller no less than forty-eight (48) hours notice of such tests and the Seller shall have the right to witness such tests, as well as any inspection of the Metering System or adjustment thereof; provided that if the Seller fails to attend such tests, inspection or adjustment such right shall have been waived with respect to such test, inspection and/or adjustment. The Seller shall bear the cost of such additional test requested by it unless the test indicates that the Metering System is inaccurate by more than one-half of one percent (0.5%), in which case the Purchaser shall bear the cost of the additional test.

- (d) In addition to the tests to be carried out pursuant to Section 7.3(b), if the Purchaser believes that the Back-Up Metering System is inaccurate it shall inform the Seller, requesting that the Back-Up Metering System's accuracy be tested, and the Seller shall test the Back-Up Metering System within a reasonable time. If the Seller believes that the Back-Up Metering System is inaccurate it shall inform the Purchaser, and the Seller shall test the Back-Up Metering System within a reasonable time. The Seller shall give the Purchaser no less than forty-eight (48) hours notice of such tests and the Purchaser shall have the right to witness such tests, as well as any inspection of the Back-Up Metering System or adjustment thereof; provided that if the Purchaser fails to attend such tests, inspection or adjustment such right shall have been waived with respect to such test, inspection and/or adjustment. The Purchaser shall bear the cost of such additional test requested by it, unless the test indicates that the Back-Up Metering System is inaccurate by more than one-half of one percent (0.5%), in which case the Seller shall bear the cost of the additional test.

Section 7.4 Reading Meters

- (a) The Seller shall, at its own cost and expense, procure and install telemetry and electronic data recording systems capable of recording the Net Delivered Energy measured by the Metering System and procure and install such systems for the Back-Up Metering System on a continuous basis and capable of storing such recordings for not less than ninety (90) Days. All metering data recorded by the Metering System and the Back-up Metering System shall also be telemetered at the System Operator's control centre through telemetry facilities provisioned by the Seller at its expense. Subject to the provisions of Section 7.4(d) and verification of the data recording system pursuant to Section 7.4(b), the Parties agree that the information contained in or obtained

from such electronic data recording and telemetry systems shall be used to determine the Net Delivered Energy. The electronic data recording system and the telemetry system related to the Metering System and the Back-Up Metering System shall constitute a part of the Metering System and the Back-Up Metering System, respectively, for all purposes under this Agreement, and the electronic data recording system and the telemetry system related to the Metering System shall be conveyed to the Purchaser as a part of the Metering System in accordance with the provisions of this Article VII.

- (b) The information contained in the electronic data recording system shall be verified by checking that the sum of the hourly readings in the electronic data recording system over a specified period are consistent with the local totalized readings for the Metering System (or, if applicable, the Back-Up Metering System) over the same period (determined by subtracting the local totalized reading at the beginning of the period from the local totalized reading at the end of the period). In order to verify the information contained in the electronic data recording system the following procedure shall apply:
- (i) the local totalized readings of the Metering System and the Back-Up Metering System shall be read on the issuance of Certificate of Readiness for Energization of the Seller Interconnection Facilities and thereafter Monthly on the last Business Day of each Month or such other Day as may be mutually agreed upon by the Parties;
 - (ii) the Purchaser shall take such reading during normal business hours unless otherwise mutually agreed by the Parties;
 - (iii) the Purchaser shall give the Seller at least forty-eight (48) hours notice of the time the Purchaser intends to take such reading and the Seller shall have the right to witness any such reading;
 - (iv) if a Seller representative is present at such reading, then such reading shall be jointly taken and recorded;
 - (v) if a Seller representative is not present at such reading, then the Purchaser representative shall take and record such reading and make a photographic record thereof;
 - (vi) the Purchaser shall maintain a log of all such meter readings; and
 - (vii) the recorded measurements for each hour during the relevant period and the local totalized recorded measurements shall be delivered by the Purchaser to the Seller within two (2) Business Days after the readings are taken.
- (c) The Metering System shall be used to measure the Net Delivered Energy, provided, that during any period when the Metering System is out of service as

a result of maintenance, repairs or testing, then the best available information, which may include the metering data recorded through the telemetry system or the data recorded at the electronic data recording system of the Back-Up Metering System, shall be used to measure the Net Delivered Energy and the provisions of Section 7.4(a) and Section 7.4(b) shall apply to the reading of the Back-Up Metering System.

- (d) If, in any test carried out pursuant to Section 7.3(a), the Metering System is found to be inaccurate by more than one-half of one percent (0.5%), or is otherwise unavailable or functioning improperly, then the correct amount of Net Delivered Energy delivered to the Purchaser for the actual period during which inaccurate measurements were made, if any, shall be determined as follows:
- (i) the readings of the Back-Up Metering System shall be used to calculate the correct amount of Net Delivered Energy, unless a test of such Back-Up Metering System, as required by either Party, reveals that the Back-Up Metering System is inaccurate by more than one-half of one percent (0.5%) or is otherwise functioning improperly;
 - (ii) if the Back-Up Metering System is found to be inaccurate by more than one-half of one percent (0.5%) or is otherwise unavailable or functioning improperly, then the Seller and Purchaser shall jointly prepare an estimate of the correct reading on the basis of all available information, including the telemetered data, and such guidelines as may have been agreed to between the Seller and the Purchaser as part of the Operating Procedures;
 - (iii) if the Purchaser and the Seller fail to agree upon an estimate for the correct reading, the Seller will estimate the reading and any Dispute shall be referred by either Party for resolution in accordance with Article XVIII; and
 - (iv) the difference between the previous payments by the Purchaser for the period of inaccuracy and the recalculated amount shall be offset against or added to the payment to the Seller under this Agreement, as appropriate, plus interest at the Delayed Payment Rate. If the period of inaccuracy cannot be accurately determined, it shall be deemed to have begun on the date which is midway between the date the meter was found to be inaccurate and the date of the last meter reading accepted by the Parties as accurate. In no event, however, shall any such adjustment be made for any period prior to the date on which the Metering System was last tested and found to be accurate within plus or minus one-half of one percent (0.5%) and not otherwise functioning improperly.

Section 7.5 Sealing of Metering Systems

- (a) The Metering System and the Back-Up Metering System shall be jointly sealed by the Parties.
- (b) Seals on the Metering System shall be broken only by the Purchaser acting in accordance with the terms of this Agreement. The Purchaser shall give the Seller at least forty eight (48) hours advance notice of the breaking of seals on any part of a Metering System. Such notice shall specify the time at which a meter seal shall be broken by Purchaser personnel, and the Seller shall be given the opportunity to be present when such seals are broken.
- (c) Seals on the Back-Up Metering System shall be broken only by Seller personnel acting in accordance with the terms of this Agreement. The Seller shall give the Purchaser at least forty-eight (48) hours advance notice of the breaking of seals on any part of a Back-Up Metering System. Such notice shall specify the time at which a meter seal shall be broken by Seller personnel, and the Purchaser shall be given the opportunity to be present when such seals are broken.
- (d) If any seal securing the Metering System or the Back-Up Metering System is found to be broken, or if the Metering System or the Back-Up Metering System has been found to have been tampered with, and, in either case, the Metering System is found to be inaccurate by more than one-half of one percent (0.5%) or is otherwise unavailable or functioning improperly, then the provisions of Section 7.4(d) shall apply to determine the correct amount of Net Delivered Energy.

Section 7.6 Repair, Replacement or Recalibration of Metering System and Back-Up Metering System

- (a) If any component of the Metering System is found to be outside acceptable limits of accuracy, or otherwise not functioning properly, the Purchaser shall forthwith repair, recalibrate or replace such component of the Metering System at own cost and expense.
- (b) If any component of the Back-Up Metering System is found to be outside acceptable limits of accuracy, or otherwise not functioning properly, the Seller shall forthwith repair, recalibrate or replace such component of the Back-Up Metering System at its own cost and expense.

Not less than thirty (30) Days prior to the commencement of such test programme, the Seller will deliver to the Purchaser in writing the final testing programme for the Complex, including a tentative schedule for conducting all tests required under this Article VIII. The Seller shall advise the Purchaser in writing of any changes in its final schedule for the testing programme not less than seven (7) Days prior to the commencement of the tests. Such final schedule shall not materially increase or advance the timing of the Purchaser's obligations under this Agreement without the prior written consent of the Purchaser. If the schedule for any tests is adjusted after the Seller has provided the Purchaser with the final testing programme schedule, then the Seller shall advise the Purchaser not less than forty-eight (48) hours prior to the commencement of any such tests. On each Day beginning with the Day on which testing commences, the Seller shall provide the Purchaser with a schedule of the tests to be conducted on the following Day or Days (if such tests will continue for more than one (1) Day). All testing of the Complex shall satisfy the Commissioning and test criteria provided in this Article VIII and Schedule 7.
- (b) If the Purchaser is unable to accommodate the schedule for any of the Commissioning Tests as provided by the Seller, the Purchaser will give the Seller notice within forty-eight (48) hours of its receipt of the final schedule for testing and the Parties will mutually agree on a date for any deferral test or programme of tests; provided, however, that should the Purchaser defer or delay any Commissioning Tests beyond fifteen (15) Days from the date on which the tests were finally scheduled and such deferral or delay causes the Scheduled Commercial Operations Date of the Complex to be delayed or deferred, as certified by the Engineer, then from the Scheduled Commercial Operations Date prevailing prior to such delay or deferral, the Purchaser shall pay to the Seller Monthly, in arrears, an amount equal to (i) the Carrying Costs; plus (ii) fifty percent (50%) of the Insurance Component, fifty percent (50%) of the Fixed O&M Component (Local), fifty percent (50%) of the Fixed O&M Component (Foreign) of the Reference Tariff multiplied by the Monthly Benchmark Energy (prorated on Daily basis for such period); The Return on Equity Component during the extended construction period on account of such delay shall be accrued and payable throughout the Term by updating the Reference Tariff Table in Schedule 1 on the Commercial Operations Date.

Such payments shall commence on the Scheduled Commercial Operations Date prevailing immediately prior to such delay or deferral and shall continue

until the earlier of (i) the end of a period equal to the period of delay or deferral of any Commissioning test or Commissioning Tests; and (ii) the completion of the first attempted Commissioning Tests (whether successfully completed or not); provided, however, that the payment of such amounts by the Purchaser and extension of the Required Commercial Operations Date shall be subject to the issuance by the Engineer of the certificate issued pursuant to Section 8.2(b) stating that the commissioning of the Seller Interconnection Facilities has been completed and a simultaneous certificate that the delay or deferral caused by the Purchaser would likely cause the then scheduled Commissioning Tests to be delayed or deferred. In addition to the payment of (i) the Carrying Costs: plus fifty percent (50%) of the Insurance Component, fifty percent (50%) of the Fixed O&M Component (Local), and fifty percent (50%) of the Fixed O&M Component (Foreign) of the Reference Tariff multiplied by the Monthly Benchmark Energy (prorated on Daily basis for such period) if the delay or deferral of the Commissioning Tests by the Purchaser continues beyond the sixtieth (60th) Day following the date of issuance by the Engineer of the two (2) certificates referred to in this Section, the Purchaser shall also be required to pay the principal debt payments when due under the Financing Documents; provided that such principal debt payments made by the Purchaser under this Section 8.1 shall be excluded in the determination or calculation of the Tariff at the Commercial Operations Date to be paid by the Purchaser hereunder. Such principal debt payment shall be due from the Purchaser on the later of thirty (30) Days following receipt of an invoice therefor or the due date for such payment under the Financing Documents, which invoice shall be signed by the Lenders or the Agent certifying the amount shown therein to be correct and stating the due date for such payment of principal debt under the Financing Documents. Such payments shall continue until the earlier of (i) the end of a period equal to the period of delay or deferral of any Commissioning test or Commissioning Tests; and (ii) the completion of the first attempted Commissioning Tests (whether successfully completed or not). In addition, the Required Commercial Operations Date shall be extended on a Day-For Day basis by the number of Days the Commissioning Tests are delayed due to the Purchaser, as certified by the Engineer in accordance with this Section.

The Purchaser shall have no obligation to make the payments provided for in this Section 8.1 if and to the extent the delay in the programme of Commissioning Tests would nevertheless have occurred regardless of the Purchaser's delay or deferral of such tests. If payments by the Purchaser under this Section 8.1 shall have commenced or the obligation for such payments shall have accrued, the Complex shall be tested at the first available opportunity thereafter. Except as provided in Section 6.5, this Section 8.1, Section 15.6 and Section 16.2(h), the Seller shall be entitled to no other penalty or claim for damages under this Agreement as a result of delay or deferral of the Commissioning Tests by the Purchaser.

- (a) On or before the Commercial Operations Date, the Seller shall establish and maintain, for the remaining Term, a separate reserve fund for the payment of expenses described in Section 9.8(c) (the “**Reserve Fund**”) with a depository institution and under depository agreements reasonably satisfactory to the Purchaser and not inconsistent with this Agreement. On the termination of this Agreement, all amounts in the Reserve Fund shall be payable to the Seller.
- (b) The Reserve Fund shall be funded by the Seller out of retained earnings commencing on the date that the first Energy Payment is made. On each date of payment of the Energy Payments, one thirty sixth (1/36) of the annual operating and maintenance budget for the Complex will be deposited into the Reserve Fund until a reserve equal to nine (9) such deposits has been established. After the second Agreement Year and at any time thereafter, the Reserve Fund may be re-established at such other level that the Parties agree is appropriate for a facility of this size and type, considering Prudent Utility Practices, the design, technology and operating history of the Complex and other pertinent information. Any investment income resulting from the depository arrangements of the Reserve Fund shall remain in the Reserve Fund; provided, however, that so long as no Seller Event of Default exists, any monies in excess of the minimum deposit required above may be paid to the Seller upon its request.
- (c) Monies in the Reserve Fund may be drawn on and used by the Seller, (i) to pay Major Maintenance Expenses (as defined below) and (ii) only to the extent the Seller lacks other available funds therefor, for the purpose of paying

As used herein “**Major Maintenance Expenses**” means expenses for an item of maintenance or repair of the Complex which will require a material expenditure and which is anticipated to be performed in accordance with manufacturers’ recommendations, sound engineering practices or Prudent Utility Practices but which is not expected to be performed on an annual or more frequent basis.

- (d)
 - (i) If after the withdrawal of any funds from the Reserve Fund for the payment of Major Maintenance Expenses as described in Section 9.8(c)(i), the amount in the Reserve Fund is less than the amount required pursuant to Section 9.8(b), the Seller shall replenish the Reserve Fund by depositing funds therein in accordance with Section 9.8(b).
 - (ii) If, after the withdrawal of any funds from the Reserve Fund for the purpose described in Section 9.8(c)(ii) above, the amount remaining in the Reserve Fund is less than the amount required pursuant to Section 9.8(b) above, the Seller shall replenish the Reserve Fund by depositing therein, within one (1) Month after the end of such Month in which such withdrawal occurred, an amount sufficient to restore the amount required in Section 9.8(b). Such amount shall be paid out of fifty percent (50%) of each of the Fixed O & M Component (Local) and Fixed O & M Component (Foreign), Insurance Component and Return on Equity Component (each of the components as defined in Schedule 1) of the Monthly Energy Payment available during the Month; provided, however, that if the Seller’s net cash flow is insufficient to fund the Reserve Fund at the required level, any shortfall shall be carried over and shall be due the following Month(s).
- (e) The Seller shall keep accurate records with respect to the Reserve Fund and all disbursements therefrom and shall, upon the Purchaser’s reasonable request, supply a complete accounting or independent audit thereof to the Purchaser.
- (f) Separate accounts established at the request of the Lenders pursuant to the Financing Documents for the purpose of paying maintenance and associated operating expenses that in all material respects satisfy the provisions of this Section 9.8 shall satisfy the Seller’s obligation to maintain a Reserve Fund hereunder. In addition, if and so long as the Seller has in effect a maintenance agreement that provides annual maintenance and necessary overhauls, such agreement shall satisfy the requirements for the maintenance of the Reserve Fund hereunder.

Neither Party shall have any liability to the other Party except pursuant to, or for breach of, this Agreement; provided, however, that this provision is not intended to constitute a waiver of any rights of one Party against the other under the Laws of Pakistan with regard to matters unrelated to this Agreement or any activity not contemplated by this Agreement.

Section 11.2 Assertion of Claims to Exceed Minimum Indemnification Amount

Each Party shall be solely liable, and shall not be entitled to assert any claim for indemnification under this Agreement, for any Loss that would otherwise be the subject of indemnification under this Agreement, until all Losses of such Party, in the aggregate, during the then-current Agreement Year, exceed the Minimum Indemnification Amount For the purposes of this Section 11.2, a

Any fines or other penalties incurred by a Party for non-compliance with the applicable Laws of Pakistan, unless they result directly from an act or omission of the other Party (in which case, they shall be reimbursed by the other Party), shall not be reimbursed by the other Party but shall be the sole responsibility of the non-complying Party.

Section 11.4 Defense of Claims

- (a) The indemnifying Party shall be entitled, at its option and expense and with counsel of its selection, to assume and control the defense of such claim, action, suit or proceeding, subject to the prior approval of the indemnified Party; provided, however, it gives prompt notice of its intention to do so to the indemnified Party, and reimburses the indemnified Party for the reasonable costs and expenses incurred by the indemnified Party prior to assumption by the indemnifying Party of such defense.

- (d) Neither Party shall be entitled to settle or compromise any such claim, action, suit or proceeding without the prior written consent of the other Party, provided, however, that after agreeing in writing to indemnify the indemnified Party as per clause 11.4(a) and Section 11.4(b), the indemnifying Party may settle or compromise any claim without the approval of the indemnified Party.

- (e) Following acknowledgment of the indemnification and assumption of the defense by the indemnifying Party, the indemnified Party shall have the right to employ its own counsel, and such counsel may participate in such action, but the fees and expenses of such counsel shall be at the expense of such indemnified Party, when and as incurred, unless (i) the employment of counsel by such indemnified Party has been authorized in writing by the indemnifying Party, (ii) the indemnified Party shall have reasonably concluded that there may be a conflict of interest between the indemnifying Party and the indemnified Party in the conduct of the defense of such action, (iii) the indemnifying Party shall not in fact have employed independent counsel reasonably satisfactory to the indemnified Party to assume the defense of such action and shall have been so notified by the indemnified Party, or (iv) the indemnified Party shall have reasonably concluded and specifically notified the indemnifying Party either that there may be specific defenses available to it that are different from or additional to those available to the indemnifying Party or that such claim, action, suit or proceeding involves or could have a material adverse effect upon it beyond the scope of this Agreement. If clause (ii), (iii) or (iv) of the preceding sentence shall be applicable, then counsel for the indemnified Party shall have the right to direct the defense of such claim, action, suit or proceeding on behalf of the indemnified Party and the reasonable fees and disbursements of such counsel shall constitute legal or other expenses hereunder and be paid by the indemnifying Party.

In such an event, in lieu of making such payment to the Seller, the Purchaser in its sole discretion may elect to procure the insurance required by Section 12.1(a) on behalf of the Seller with insurers of a rating not less than the Seller's existing insurers or the insurers with whom such insurance was procured by the Seller prior to the occurrence of the Pakistan Political Event and deduct the insurance cost for such insurance from the Insurance Component of the then prevailing Energy Price as full compensation therefor; provided, that the Purchaser shall, within fifteen (15) Business Days of procuring such insurance, provide to the Seller receipts for the payment of premiums and copies of the certificates of insurance or policies, if available, of insurance obtained by the Purchaser. The Seller and the Lenders shall be named as an additional insured. The Seller shall be named as the loss payee (subject to any assignment of insurance proceeds to the

The Seller shall cause its insurers or agents to provide the Purchaser with certificates of insurance evidencing the policies and endorsements listed above. Failure by the Seller to obtain the insurance coverage or certificates of insurance required by this Article XII shall not in any way relieve or limit the Seller's obligations and liabilities under any provision of this Agreement. If the Seller shall fail to procure or maintain any insurance required pursuant to this Article XII, then the Purchaser shall have the right to procure such insurance in accordance with the requirements of Schedule 8 and shall be entitled to offset the premiums paid for such insurance against any amounts owed to the Seller pursuant to the terms of this Agreement. - (a) If by reason of a Force Majeure Event a Party is wholly or partially unable to carry out its obligations under this Agreement, the affected Party shall:
- (i) give the other Party notice of the Force Majeure Event(s) as soon as practicable, but in any event, not later than the later of, forty-eight (48) hours after the affected Party becomes aware of the occurrence of the Force Majeure Event(s) or six (6) hours after the resumption of any means of providing notice between the Seller and the Purchaser, and
 - (ii) give the other Party a second notice, describing the Force Majeure Event(s) in reasonable detail and, to the extent which can be reasonably determined at the time of such notice, providing a preliminary evaluation of the obligations affected, a preliminary estimate of the period of time that the affected Party shall be unable to perform such obligations and other relevant matters as soon as practicable, but in any event, not later than seven (7) Days after the

initial notice of the occurrence of the Force Majeure Event(s) is given by the affected Party pursuant to Section 15.2.(a)(i).

When appropriate or when reasonably requested to do so by the other Party, the affected Party shall provide further notices to the other Party more fully describing the Force Majeure Event(s) and its cause(s) and providing or updating information relating to the efforts of the affected Party to avoid and/or to mitigate the effect(s) thereof and estimates, to the extent practicable, of the time that the affected Party reasonably expects it shall be unable to carry out any of its affected obligations due to the Force Majeure Event(s).

- (b) The affected Party shall provide notice to the other Party of (i) the cessation of the Force Majeure Event notified under Section 15.2(a) along with an estimate of the date it would be able to recommence performance of its obligations under this Agreement, and (ii) the date it was able to recommence performance of its obligations under this Agreement, as soon as possible and in any event no later than seven (7) Days after the occurrence of each of the events mentioned in clauses (i) and (ii) hereabove.
- (c) Failure by the affected Party to have given written notice of a Force Majeure Event to the other Party within the six (6) hour period or forty eight (48) hour period required by Section 15.2(a) shall not prevent the affected Party from giving such notice at a later time; provided, however, that in such case the affected Party shall not be excused pursuant to Section 15.4 for any failure or delay in complying with its obligations under or pursuant to this Agreement until such notice has been given. If said notice is given within the forty-eight (48) hour period or six (6) hour period required by Section 15.2(a), the affected Party shall be excused for such failure or delay pursuant to Section 15.4 from the date of commencement of the relevant Force Majeure Event.

Section 15.3 Duty to Mitigate

The affected Party shall use all reasonable efforts (or shall ensure that its Contractors use all reasonable efforts) to mitigate the effects of a Force Majeure Event, including, but not limited to, the payment of reasonable sums of money by or on behalf of the affected Party (or such Contractor), which sums are reasonable in light of the likely efficacy of the mitigation measures.

Section 15.4 Delay Caused by Force Majeure

So long as the affected Party has at all times since the occurrence of the Force Majeure Event complied with the obligations of Section 15.3 and continues to so comply then:

- (i) the affected Party shall not be liable for any failure or delay in performing its obligations (other than an obligation to make a payment) under or pursuant to this Agreement during the existence of a

Force Majeure event; and

- (ii) any performance deadline that the affected Party is obligated to meet under this Agreement shall be extended;

provided, however, that no relief, including the extension of performance deadlines, shall be granted to the affected Party pursuant to this Section 15.4 to the extent that such failure or delay would have nevertheless been experienced by the affected Party had the Force Majeure Event not occurred;

provided, further, that, in the case of a Force Majeure Event which damages the Complex, in no event shall the date by which performance obligations of the affected Party in effecting the Restoration are to be satisfied as provided under this Agreement be extended beyond the end of the Restoration Period.

Other than for breaches of this Agreement by the other Party, and without prejudice to the affected Party's rights to indemnification pursuant to Article XI or for payment pursuant to Article IX, Section 15.5, Section 15.6, Section 15.8, and Section 15.9, the other Party shall not bear any liability for any Loss suffered by the affected Party as a result of a Force Majeure Event.

Section 15.5 Payment During Force Majeure Event

Upon the occurrence of any Force Majeure Event after the Commercial Operations Date, then during the pendency of a Force Majeure Event, the Purchaser shall pay to the Seller Energy Payments for Monthly Energy that the Seller is able to provide during the pendency of such Force Majeure Event.

Section 15.6 Additional Compensation

(a)

- (i) In the event that a PPFME results in material damage to the Complex or that compliance by the Seller with a CLFME requires a material modification or a material capital addition to the Complex (each such event referred to herein as a "**Restoration**"), the Seller shall, within thirty (30) Days after the date by which it was first required to provide notice to the Purchaser under Section 15.2(a), except if the Pakistan Political Event has not ended by the time of such notice, in which case within thirty (30) Days of the notice required by Section 15.2(b), develop and deliver to the Purchaser a preliminary written estimate (the "**Preliminary Estimate**") of:

- (A) the projected range of cost to effect the Restoration, less any insurance proceeds available or likely to become available to the Seller (the "**Restoration Cost Estimate**") and the Threshold Amount; and

- (B) a preliminary schedule for the activities required to complete Restoration, including, if the Restoration Cost Estimate is greater than the Threshold Amount, a reasonable period to arrange the financing, (such schedule and each such schedule contained in the Report to be delivered pursuant to Section 15.6(b) shall be referred to herein as the “**Restoration Schedule**,” which Restoration Schedule shall include the period of time reasonably estimated to complete the Restoration, which period shall be referred to herein as the “**Restoration Period**”).

The Seller shall make the Preliminary Estimate as comprehensive and as complete as reasonably possible. The Parties shall meet within fifteen (15) Days of the delivery of the Preliminary Estimate to discuss the conclusions set forth therein. As used in this Section 15.6, “**material damage**” or a “**material modification**” or “**material capital addition**” to the Complex shall mean out-of-pocket expenditures on such damage, modification or modifications or capital addition or additions are or are reasonably expected to be in excess of the equivalent of (i) US\$250,000 in respect of any single event resulting in damage or requiring a modification or addition; or (ii) US\$1,000,000 in the aggregate in any Year (in each case adjusted annually from the Commercial Operations Date for changes in the United States consumer price index from the value existing on the date hereof).

- (ii) If there occurs a PPFME or a CLFME that prevents or delays the construction of the Complex or the ability of the Seller to operate the Complex or deliver Net Delivered Energy, the Purchaser shall within thirty (30) Days of the delivery by the Seller for an invoice therefor, pay to the Seller, for each Month (prorated for portion thereof) of the PE Compensation Period (as defined below) an amount equal to:
 - (A) the Carrying Cost plus 50% of the Fixed Operation & Maintenance Component (Local) and 50% of the Fixed O&M Component (Foreign) of the Energy Price multiplied by the Monthly Benchmark Energy, prorated Daily if the PPFME or the CLFME occurs after the shipment of the first batch of major equipment required for a WTG constituting a part of the Complex has left its port of origin for transport into Pakistan but prior to the Commercial Operations Date, or
 - (B) the Fixed Operation and Maintenance Component (Local), Fixed O&M Component (Foreign), Insurance Component, Return on Equity Component, Interest Charge Component and Loan Repayment Component of the Energy Price multiplied by

the Monthly Benchmark Energy, prorated Daily, if the PPFME or the CLFME occurs after the Commercial Operations Date (less the amount of Energy Payments paid to the Seller by the Purchaser pursuant to Section 15.5).

The term “**PE Compensation Period**” shall mean the period beginning with the onset of PPFME or CLFME, as the case may be, (unless a timely notice was not given under Section 15.2(a)(i) in which case from the time such notice was given) and ending on either, as appropriate:

- (A) the date the Seller is able to resume performance of its obligations under this Agreement as specified in the notice given pursuant to Section 15.2(b);
 - (B) the last Day of the Restoration Period (as such Restoration Period may have been extended due to an intervening Force Majeure Event or pursuant to Section 15.9); or
 - (C) if this Agreement is terminated pursuant to Section 15.9, the Day that all compensation payable by the GOP in connection with such termination under Article XV of the Implementation Agreement is paid. Notwithstanding any contrary provision of this Agreement, if this Agreement is terminated pursuant to Section 15.9, all amounts payable under Section 15.6(a)(ii) are to be paid to the Seller no later than the Day the compensation amount determined in accordance with Section 15.9 and Article XV of the Implementation Agreement is paid.
- (b) If the Seller concludes that the Restoration Cost Estimate shall be less than the Threshold Amount and the Purchaser, within fifteen (15) Days of its receipt of the Preliminary Estimate, agrees with the Restoration Cost Estimate and with the Restoration Schedule, then the Seller shall, subject to Section 15.6(d), proceed with the Restoration in accordance with the Restoration Schedule.
- (c) If:
- (i) the Seller concludes that the Restoration Cost Estimate shall be less than the Threshold Amount and the Purchaser, within fifteen (15) Days of its receipt of the Preliminary Estimate, notifies the Seller that the Purchaser disagrees with the Seller’s conclusion and/or that it disagrees with the Restoration Schedule; or
 - (ii) the Seller concludes that the Restoration Cost Estimate shall be greater than the Threshold Amount and the Purchaser, within fifteen (15) Days of its receipt of the Preliminary Estimate, agrees with such conclusion,

then the Seller shall proceed with the preparation of a Report and the provisions of Section 15.6(e) and Section 15.7 shall apply.

- (d) If the Seller concludes that the Restoration Cost Estimate shall be greater than the Threshold Amount and the Purchaser, within fifteen (15) Days of its receipt of the Preliminary Estimate, disagrees with the Preliminary Estimate, such matter (and any disagreement regarding the Restoration Schedule) shall be referred to an Expert for resolution pursuant to Section 15.7(c) within twenty (20) Days of the date the Purchaser delivers notice to the Seller that the Purchaser disagrees with the Restoration Cost Estimate. If the Expert concludes that the Restoration Cost Estimate is less than the Threshold Amount, the provisions of Section 15.6(b) shall apply. If the Expert concludes that the Restoration Cost Estimate is greater than the Threshold Amount, then the Seller shall proceed with the preparation of a Report and the provisions of Sections 15.6(e) and 15.7 shall apply.
- (e) If a Report is required to be prepared, then at the conclusion of the meetings of the Parties to discuss the Report (as contemplated by Section 15.7(b)), the Parties shall either agree or disagree with respect to the matters addressed therein and whether the Restoration is feasible or not.

If the Parties reach agreement on such matters, or, in the case of a disagreement, after resolution by an Expert pursuant to Section 15.7(c) the Purchaser shall, within fifteen (15) Days of such agreement or resolution, provide the Seller with a written notice of its election to either:

- (i) terminate this Agreement with the approval of the GOP and the GOP pay the applicable compensation pursuant to, as applicable, Section 15.1(c) or Section 15.1(e) of the Implementation Agreement; or
- (ii) proceed with Restoration in which case the following provisions shall apply:
 - (x) the Seller shall proceed in good faith to try to secure financing for the cost of Restoration on terms satisfactory to the Purchaser. If the Seller is unable to obtain binding commitments for such financing within three hundred (300) Days of receipt of the Purchaser's notice authorizing the Seller to proceed with Restoration, then unless the Purchaser commits to provide financing for the Restoration within the next sixty (60) Days and provides such funds to the Seller within one hundred and twenty (120) Days thereafter, the failure to secure financing shall be treated as an election by the Purchaser to terminate this Agreement pursuant to Section 15.6(e) and Section 15.8(a), in which case the GOP shall be required to pay the applicable compensation pursuant to, as applicable, Section

- 15.1(c) or Section 15.1(e) of the Implementation Agreement;
- (y) if financing for the Restoration has been secured, then the Seller shall proceed with the Restoration in accordance with the Restoration Schedule set out in the Report, as amended by agreement of the Parties or resolution of the Expert, as applicable, and, upon completion of the Restoration, the Seller shall be entitled to special compensation pursuant to Section 15.8(b) or Section 15.8(c), as the case may be; and
 - (z) the Seller shall provide the Purchaser with a summary of all costs actually incurred in implementing the Restoration, together with copies of all invoices for such work.
- (f) If the Complex or any part thereof is damaged as a result of an Other Force Majeure Event and the Seller fails to restore the operation of the Complex within thirty (30) Days following the commencement of that Other Force Majeure Event, then the Seller shall prepare and deliver a Report pursuant to Section 15.7(a).
- (g) If pursuant to Section 15.6(f) the Parties conclude (or the Expert concludes) that the Complex can be restored such that the Seller can continue to meet its obligations under this Agreement, the Seller shall proceed with the restoration in accordance with the Restoration Schedule contained in the Report.
- (h) If pursuant to Section 15.6(f) the Parties conclude (or the Expert concludes) that the Complex can be restored such that the Seller can continue to meet its obligations under this Agreement but the Purchaser does not agree with the Restoration Schedule contained in the Report, then the Purchaser shall notify the Seller within fifteen (15) Days of the receipt of the Report and shall, in such notice, propose an alternative Restoration Schedule. The Parties shall try, in good faith, to agree upon a revised Restoration Schedule. If the Parties cannot agree upon a revised Restoration Schedule within the fifteen (15) Day period following the notice, then either Party may submit the matter to an Expert pursuant to Section 15.7(c) to determine the proper Restoration Schedule. Notwithstanding the foregoing, the Seller shall, subject to satisfying any of the conditions or requirements of the entity providing financing for the restoration (including any insurance company paying a claim to the Seller), have the option to proceed with the restoration while the issue of the Restoration Schedule is being resolved.
- (i) If, following the Commercial Operations Date, there occurs a PPFME or a CLFME that, in either case, does not require the Seller to undertake a Restoration but nonetheless has a material adverse effect on the Seller's ability to operate the Complex or to deliver Net Delivered Energy (a "**Non-Restoration Event**"), then the Purchaser shall pay to the Seller for each

Month (or portion thereof) of the PE Compensation Period (as defined below), the Energy Price multiplied by the Monthly Benchmark Energy, prorated daily, less the amount any Energy Payments paid to the Seller by the Purchaser pursuant to Sections 9.1 and 15.5. The term "PE Compensation Period" for purposes of this Section 15.6(i) only, shall have the same meaning as it bears in Section 15.6(a)(ii) except for the reference to the Restoration Period.

- (j) For the purposes of this Article XV, the term "**Threshold Amount**" shall mean, for any event, the EPC Cost multiplied by a percentage equal to twenty-five percent (25%) at any time prior to or on the Commercial Operations Date and such percentage decreasing annually as a straight-line basis to five percent (5%) at one year prior to the end of the Term, and remaining at five percent (5%) thereafter until the end of the Term.
- (k) Notwithstanding anything herein to the contrary, in the event of:
 - (i) the occurrence of a PPFME that has a material adverse effect on the Seller's ability to construct, commission or operate the Complex and such PPFME continues for a period exceeding one hundred eighty (180) Days, or
 - (ii) a series of such related PPFMEs that continue in the aggregate for a period that exceeds one hundred eighty (180) Days (not including the effects thereof) during any year, or
 - (iii) a PPFME or a CLFME following which the Parties agree or the Expert determines that a Restoration is not feasible or the Purchaser decides that the cost of Restoration is not acceptable, or
 - (iv) a CLFME following which the Complex does not operate for one hundred eighty (180) Days and during such period the Change in Law is not rescinded or modified in a way to permit or avoid the Restoration or allow the Complex to operate as before,

the Purchaser (with the approval of the GOP) or the Seller shall have the option to terminate this Agreement immediately by delivering written notice of such termination to the other Party, and, following such termination, the GOP shall be required to pay to the Seller the compensation provided in Section 15.1 of the Implementation Agreement.

Section 15.7 Appraisal Report and Use of Expert

- (a) When required by Section 15.6(a), Section 15.6(c), Section 15.6(d), Section 15.6(f) or Section 15.7, the Seller shall commence the preparation of an appraisal report (the "**Report**") within fifteen (15) Days after the date it was determined that a Report would be necessary, and deliver a copy of such Report to the Purchaser as soon as practicable, but in any event not later than

sixty (60) Days thereafter. The Report shall address, in such detail as is practicable under the circumstances and accompanied by reasonable supporting data, the following matters (to the extent applicable):

- (i) in the case of a Force Majeure Event covered by Section 15.6(a) or Section 15.6(c) describe the Force Majeure Event and the damage to the Complex, and/or the other effects or impacts on, the Complex;
 - (ii) estimate in good faith the time it shall take to restore the Complex (as much as it may be possible to do so) to its condition immediately prior to the Force Majeure Event or to bring the Complex into compliance with the Change in Law;
 - (iii) propose a Restoration Schedule; or in the case of a Force Majeure Event covered by Section 15.6(a), provide a statement and explanation in good faith regarding whether restoration or modification of the Complex or necessary capital additions are technically feasible, including the Seller's good faith estimate of the cost to restore the Complex to its condition immediately prior to the Force Majeure Event and the associated delay costs or the costs to come into compliance with the Change in Law;
 - (iv) a revised cash flow forecast for the Complex;
 - (v) the insurance proceeds, if any, that may be recovered, the date or dates on which such proceeds may be received, and the particular purposes for which such proceeds are required to be applied;
 - (vi) in the case of PPFME or a CLFME covered by Section 15.6(a), describe

the plan to fund the costs of the Restoration;
 - (vii) in the case of a PPFME or a CLFME covered by Section 15.6(a) the projected Supplemental Tariff payable under this Agreement that would be required to pay special compensation under Section 15.8;; and
 - (viii) in the case of a Force Majeure Event covered by Sections 15.6(a) or 15.6(c) certificates and reports of the Seller's financial and technical advisers, as appropriate or as reasonably requested by the Purchaser, in support of the applicable matters referred to in this Section 15.7(a).
- (b) Within fifteen (15) Days of the delivery of a Report to a Party or such further time as the Parties may agree, the Parties shall meet to discuss the Report and any action(s) to be taken. In connection with the review by the Purchaser of a Report prepared by the Seller, the Seller shall provide promptly to the

Purchaser such additional financial and related information pertaining to the Report and the matters described therein as the Purchaser may reasonably request.

- (c) The following Disputes between the Purchaser and the Seller shall be submitted to the Expert for resolution within the time period specified:
 - (i) with respect to Disputes regarding any matter set forth in a Report, no later than twenty (20) Days after expiration of the period for review and consultation provided by Section 15.7(b);
 - (ii) with respect to Disputes pursuant to Section 15.6 within the applicable period provided for in Section 15.6; and
 - (iii) with respect to whether an item of cost incurred by the Seller should be recovered as provided in Section 15.8(e), within twenty (20) Days following the delivery of a written request to do so by either Party.
- (d) In addition to the requirements under Section 18.2, the Expert shall be an engineer with extensive experience in the construction and operation of electric power plants similar to the Complex selected for technical matters in accordance with Section 18.2.
- (e) If the Seller or the Purchaser reasonably believes that the cost of a Restoration is likely to exceed two-thirds (2/3) of the Threshold Amount, then the Parties shall cooperate in good faith to select an Expert each time that a Preliminary Estimate is to be prepared pursuant to Section 15.6 and engage such Expert to be available in case a Dispute shall need to be resolved. The Expert shall be provided with a copy of the Preliminary Estimate and any other written materials prepared by either Party and asked to read all materials that are provided.
- (f) Once a Dispute is referred to the Expert, each Party shall provide all materials in support of its position to the Expert and to the other Party in accordance with Section 18.2. Each Party shall use its best efforts to provide the Expert with any additional information the Expert requests. The Expert shall be charged with the responsibility of using his best efforts to render his decision regarding any referred matter within thirty (30) Days of the date of the referral. Each Party shall be responsible for paying fifty percent (50%) of the costs of the Expert and shall pay for its own costs.
- (g) Notwithstanding any other provision in this Agreement to the contrary regarding the role of Experts in resolving Disputes, unless the Parties agree to the contrary in writing signed by both Parties at the time the Expert is selected, the decision of the Expert as to any matter referred under Section 15.6 shall be final and binding on both Parties and shall not be subject to appeal. The Parties expressly waive, to the fullest extent permitted by law, any and all

rights that they may now have or may have in the future to contest the decision of the Expert before any arbitral tribunal or any court or other adjudicatory or administrative body.

Section 15.8 Supplemental Tariffs

- (a) In the case of a Force Majeure Event that is covered by Section 15.6(a), the Purchaser shall determine under Section 15.6(e) whether to proceed with the Restoration (subject to the obligation to pay special compensation pursuant to Section 15.8(b) or Section 15.8(c), as the case may be), or terminate this Agreement. The Seller acknowledges that the Purchaser may delegate the review of a Report to any Relevant Authority and agrees to cooperate with such Relevant Authority as if it were the Purchaser. In the case of a Force Majeure Event covered by Sections 15.6(a) or 15.6(e), the determination required to be made by the Purchaser under this Section 15.8(a) shall be made no later than fifteen (15) Days after the receipt of the Report by the Purchaser; provided, however, that if any matter is submitted to an Expert for resolution pursuant to Section 15.7(c), such determination shall be made by the Purchaser no later than ten (10) Days after the decision is made by the Expert.
- (b) In the case of a PPFME covered by Section 15.6(a) the Seller (unless this Agreement has been terminated by the Purchaser pursuant to Section 15.6(e), Section 15.8(a) or Section 15.9(b) or by either Party pursuant to Section 15.6(k)), shall be entitled to receive Supplemental Tariffs in accordance with the procedures set forth in Schedule 1 to recover over the remainder of the Term (unless a shorter period for recovery of such costs is agreed by the Parties) the costs incurred in effecting the Restoration as provided in Section 15.6(e).
- (c) In the case of a CLFME covered by Section 15.6(a) the Seller shall (unless this Agreement has been terminated by the Purchaser pursuant to Sections 15.6(e), 15.8(a) or 15.9 or by either Party pursuant to Section 15.6(k)), be entitled to receive Supplemental Tariffs in accordance with the procedures set forth in Schedule 1 to recover the costs of complying with the Change in Law, including
 - (i) the cost of any material modifications or material capital additions to the Complex that are necessary for the Seller to come into compliance with the Change in Law and are approved in accordance with Section 15.8(d); and
 - (ii) the cost of additional quantities or higher quality of consumables that can be directly attributed to compliance by the Seller with the Change in Law. Any reduction in cost due to a decrease in the use of quality of consumables by the Complex shall be credited to the Purchaser as provided in Section 15.8(d).

- (d) The Seller shall (unless this Agreement has been terminated by the Purchaser pursuant to Sections 15.6(e), 15.8(a) or 15.9), be entitled to receive a Supplemental Tariff such that it will recover from the Purchaser the costs actually incurred in effecting the Restoration, including, without limitation, weighted average cost of capital equal to LIBOR plus six and one half percent (6.5%) determined at the time the Complex returns to operation or, if the Complex did not cease operation, at the time the Restoration is completed by the Seller. The costs to be recovered by the Seller pursuant to this Section 15.8 and Section 15.9 shall be the costs that are actually incurred by the Seller to effect the Restoration to the extent those costs exceed any insurance proceeds; provided, however, that each such item of cost shall have been reasonable and appropriate for the Seller to effect such Restoration consistent with the standards for the original construction and the applicable Laws of Pakistan and Prudent Utility Practices. The Seller shall deliver a schedule of such costs to the Purchaser, together with copies of the invoices, for review by the Purchaser. If the Purchaser contests any item of cost on the basis of the foregoing standards and the Purchaser and the Seller cannot agree, the issue of whether such item of cost should be recovered under this Agreement shall be referred to an Expert pursuant to Section 15.7(c) to render a decision based on the foregoing standards.
- (e) If there is any Dispute as to whether any payment is due and payable to the Seller pursuant to this Section 15.8 or any Dispute as to the amount or timing of any such payment, then pending resolution of the Dispute, the Purchaser shall be obligated to pay to the Seller the undisputed amount. Amounts determined through the Dispute resolution procedure to be payable by the Purchaser shall be paid to the Seller with interest equal to the Delayed Payment Rate from the date payment was due to the date of payment by the Purchaser.

Section 15.9 Termination as a Result of a Force Majeure Event

- (a) If this Agreement is terminated as a result of a Force Majeure Event, then the provisions of Section 15.1 of the Implementation Agreement shall be applied to determine whether compensation is to be paid by the GOP to the Seller and the amount of such compensation.
- (b) If the Seller is required to proceed with a Restoration pursuant to Section 15.6 and the Restoration has not been or shall not be completed by the end of the Restoration Period (as such Restoration Period may have been extended due to an intervening Force Majeure Event), or within the Restoration Cost Estimate, then the Seller may, and if the Restoration Cost Estimate or Restoration Period is expected to be exceeded by fifteen percent (15%), the Seller shall, develop a revised cost estimate and schedule as soon as possible and provide an explanation of the delay or revised cost or both to the Purchaser. If the Purchaser agrees that the delay and revised schedule, or revised cost estimate

are reasonable and do not result from negligence, fault or unnecessary delay by the Seller (whether in the preparation of the Restoration Period and Restoration Cost Estimate in light of the information reasonably available at the time, and under the circumstances under which the Restoration Cost Estimate and Restoration Period were required to be prepared or in effecting the restoration, or otherwise) the Purchaser shall continue to make the payments required under this Article XV. If the Purchaser does not accept the explanation or the revised schedule or cost estimate, the matter shall be referred to an Expert selected pursuant to Section 15.7(c) for resolution, and the Purchaser shall continue to make the appropriate payments pending resolution of the dispute by the Expert.

- (c) The Expert shall make its determination with respect to the revised schedule or revised cost and the Seller's liability therefore within thirty (30) Days of such referral. If the Expert determines that the delay was not reasonable and that it was due to the Seller's negligence, fault, or unnecessary delay the Restoration Period shall not be revised and the provisions of Section 15.9(d) shall apply. If the Expert concludes that the delay was reasonable under the circumstances and not due to the negligence, fault or unreasonable delay of the Seller, the Expert shall fix the revised Restoration Period and Restoration Cost Estimate. If the revised Restoration Cost Estimate is more than one hundred and fifteen percent (115%) of the Restoration Cost Estimate, or the revised Restoration Period is more than one hundred and fifteen percent (115%) of the Restoration Period, the Purchaser with the approval of the GOP may elect to terminate this Agreement, unless the Seller elects to attempt to complete the Restoration during the Extended Period. Upon such termination, the provisions of Section 15.10 of this Agreement, and as applicable, Section 15.1(c) or Section 15.1(e) of the Implementation Agreement shall apply. If the revised Restoration Cost Estimate or Restoration Period do not exceed the one hundred and fifteen percent (115%) threshold, or the Purchaser does not terminate this Agreement, the Purchaser shall continue to make payments to the Seller in accordance with Section 15.6(a)(ii) during such revised schedule period. After the end of the Restoration Period, as it may have been revised, the Purchaser shall have no further obligation to make such payments, and any additional costs incurred by the Seller to expedite the completion of the Restoration shall not be included in the costs that form the basis of the tariff under Section 15.8.
- (d) Notwithstanding the provisions of Section 15.9(c), if the Restoration has not been completed by the end of the Extended Period or the end of the Restoration Period, as applicable, then, unless the Seller is diligently attempting to complete the Restoration, the Purchaser, with the written approval of the GOP, shall be entitled to terminate this Agreement upon thirty (30) Days notice, whereupon Section 15.10 of this Agreement and , and as applicable, Section 15.1(c) or Section 15.1(e) of the Implementation Agreement shall apply. The "**Extended Period**" shall commence on the first

Day following the end of the Restoration Schedule (as such Restoration Schedule may have been extended due to an intervening Force Majeure Event or revised in accordance with Section 15.9(c) and shall end on the last Day of a period equal to twenty-five (25%) percent of the number of Days in the Restoration Schedule (as it may have been revised); provided, however, that the Extended Period shall be extended for the full period of any intervening Force Majeure Event plus the period of time necessary for the Seller to overcome the effects of the intervening Force Majeure Event.

Section 15.10 Notice of Termination

A Party shall exercise any right to terminate this Agreement under this Article XV by delivering a notice of termination to the other Party in accordance with Section 19.1. Any such notice from the Purchaser shall be executed by a duly authorized representative of the Purchaser. A copy of any notice from the Seller shall be delivered to the GOP at the same time the notice is delivered to the Purchaser in accordance with the provisions of Section 18.1 of the Implementation Agreement. Such notice shall identify, if applicable, the PPFME or CLFME in reasonable detail and the basis for termination. Termination of this Agreement shall be effective at 17:00 hours on the thirtieth (30th) Day following the date of delivery of such notice.

ARTICLE XVI
TERMINATION

Section 16.1 Seller Events of Default

The following events shall be events of default by the Seller (each a “**Seller Event of Default**”), provided, however, that no such event shall be a Seller Event of Default if it is caused in whole or material part by (i) a breach by the Purchaser of, or a default by the Purchaser under, this Agreement (including any Purchaser Event of Default), (ii) a breach by the GOP of, or a default by the GOP under, the Implementation Agreement (including any GOP Event of Default thereunder), or (iii) if it occurs as a result of a Force Majeure Event (except in the case of Section 16.1(c)), or (iv) breach of the Site Sub-lease by AEDB:

- (a) the failure of the Seller:
 - (i) to achieve the Construction Start Date within ninety (90) Days following Financial Closing; or
 - (ii) to achieve the Commercial Operations Date not later than four hundred (400) Days after the Required Commercial Operations Date;
 - (iii) after Construction Start Date but prior to the achievement of the Commercial Operations Date, the failure of the Seller to prosecute the Project in a diligent manner for a period of thirty (30) consecutive Days, without prior notice to and the prior written consent of AEDB (acting on behalf of the GOP); or
- (b) following the Commercial Operations Date, an Abandonment by the Seller without the prior written consent of the Purchaser and which continues for a period of thirty (30) consecutive Days, provided however the Seller shall not be deemed to have Abandoned its Complex so long as it is using all reasonable efforts to regain control of the Complex or reinstate its commercial operations;
- (c) the Seller’s failure:

Notwithstanding the foregoing if the address of the Lenders or Agent is outside Pakistan, any notice delivered to the Lenders or the Agent pursuant to this Section 16.5 shall be presented personally or sent by

international courier or facsimile, and if sent by facsimile, confirmed by international courier. In the event that the Agent fails to deliver an Election Notice or the Lenders (or their designee) fail to cure any such Seller Event of Default is not cured on or before the expiration of the Extended Cure Period, as it may have been extended, the Purchaser may immediately terminate this Agreement effective upon delivery to the Lenders or the Agent of notice of such termination. During such Extended Cure Period, the Agent shall keep the Purchaser apprised of the Lenders' or their designee's efforts to cure such Seller Event of Default. Notwithstanding any provisions of this Section 16.5 to the contrary, the Initial Cure Period, the Evaluation Period and the Extended Cure Period, as the case may be, shall be extended on a Day-for-Day basis for each Day in which during any such period the breaches, conditions or events set forth in sub-clauses (i), (ii), (iii) or (iv) of the preamble of Section 16.1 are in existence or in effect or subsist or a Seller Consent has not been transferred to or issued in favour of the Lenders, their designee or any Transferee, or is not in full force or effect on or after the one hundred and eightieth (180th) Day of such period and within thirty (30) Days after the Lenders, the Agent, the Lenders' designee or the Transferee have made due application therefor and otherwise complied with the obligations applicable to them under Section 2.3 and such circumstance has not arisen due to (i) a failure by the Lenders, the Agent, the Lenders' designee or the Transferee to comply with the obligations applicable to them under Section 2.3 or (ii) the Purchaser or any Relevant Authority exercising any power in accordance with Section 12.1 of the Implementation Agreement in relation to any such Seller Consents following the issuance thereof in favour of the Lenders, the Agent, the Lenders' designee or the Transferee.

- (b) expressly survive such termination, including without limitation, the obligation to pay amounts due under Sections 5.12, 16.7, Article XI, and liquidated damages under Section 9.3, and/or

- (c) survive such termination pursuant to Section 17.1.

Section 16.7 Reimbursement

The Parties agree that any such encashment constitutes liquidated damages for such Seller Event of Default and shall be the exclusive remedy available to the Purchaser therefor, and the Seller shall not have any obligation to compensate the Purchaser for any amount pursuant to Section 16.7(a). The Seller hereby waives to the fullest extent permitted by law any claim that the encashment of the Seller Letter of Credit in such amount is void as a penalty.
- (c) In the event of a termination of this Agreement after the Effective Date and prior to the Commercial Operations Date for any reason other than a Seller Event of Default the Purchaser shall reimburse the Seller for all costs and expense (including reasonable attorneys' fees) relating to the Project incurred by the Seller prior to such termination, which amount in any event shall not exceed the Rupee equivalent of one hundred and fifty thousand Dollars (\$150,000).

Section 16.8 Other Remedies

- (a) The exercise of the right of a Party to terminate this Agreement, as provided herein, does not preclude such Party from exercising other remedies that are provided herein or are available at law; provided, however, that no Party shall have a right to terminate or treat this Agreement as repudiated except in accordance with the provisions of this Agreement. Subject to the provisions of Article X and except as may otherwise be set forth in this Agreement, remedies are cumulative, and the exercise of, or failure to exercise, one or more of them by a Party shall not limit or preclude the exercise of, or constitute a waiver of, other remedies by such Party.
- (b) Notwithstanding the foregoing or any other provision of this Agreement to the contrary, the Parties agree that the Purchaser may be damaged in amounts that may be difficult or impossible to determine in the event the Seller Event of Default described in Section 16.1(a) occurs. Therefore, the Parties have agreed

that, in such event, the amounts set forth in Section 16.7 are reasonable and constitute liquidated damages to the Purchaser and it is further understood and agreed that the payment of such amounts under Section 16.7, and any encashment of the Seller Letter of Credit pursuant to its terms, shall be in lieu of actual damages for such occurrence and the collection of such sums and the termination of this Agreement pursuant to Section 16.1(a) is the sole remedy of the Purchaser for such event.

- (c) Notwithstanding the foregoing or any other provision of this Agreement, the Parties agree that, in the event the Seller terminates this Agreement and the Implementation Agreement as a result of a Purchaser Event of Default under this Agreement pursuant to Section 14.1(b)(vi) of the Implementation Agreement and the Seller receives from the GOP compensation for such default and termination pursuant to Section 15.1(b) of the Implementation Agreement, then, upon receipt of such payment and termination of this Agreement, any claims by the Seller against or liability of the Purchaser under this Agreement (except as provided in Section 16.6) shall be fully extinguished and the Seller shall have no further claim or recourse against the Purchaser under this Agreement.
- (d) Notwithstanding the foregoing or any other provision of this Agreement, the Parties agree that, in the event that the GOP terminates the Implementation Agreement as a result of a Seller Event of Default under this Agreement pursuant to Section 14.1(a)(ix) of the Implementation Agreement, the GOP elects to purchase the Complex and the Seller transfers the Complex to the GOP pursuant to Section 15.1(a) of the Implementation Agreement, then, upon such transfer, any claims by the Purchaser against or liability of the Seller under this Agreement (except as provided in Section 16.7, which shall constitute independent and separate rights of the Purchaser) shall be fully extinguished and the Purchaser shall have no further claim or recourse against the Seller under this Agreement.
- (e) Notwithstanding the foregoing or any other provision of this Agreement, the Parties agree that, in the event that either the GOP or the Seller terminates the Implementation Agreement pursuant to Section 14 thereof, this Agreement shall immediately terminate upon termination of the Implementation Agreement. Upon the transfer of the Complex to the GOP or its designee pursuant to Article XV of the Implementation Agreement, any claims against or liability of either Party under this Agreement as a consequence of such termination shall be fully extinguished and the Purchaser and the Seller shall have no further claim or recourse against the Seller or the Purchaser, as the case may be, under this Agreement, except for claims existing or having accrued prior to the date of such termination.

Section 16.9 Notice to the GOP of a Purchaser Event of Default

Anything in this Agreement notwithstanding, the Seller shall not seek to terminate this Agreement as a result of any default of the Purchaser without first giving a copy of any notices required to be given to the Purchaser under Sections 16.3 and 16.4 to the GOP, such notices to be coupled with a statement of the period available to cure any such default within the same cure period as provided to the Purchaser hereunder and such cure period to commence upon delivery of each such notice to the GOP. Each such notice shall be deemed to have been delivered (a) when presented personally to the GOP, (b) when transmitted by facsimile, or (c) five (5) Days after being deposited in a regularly maintained receptacle for the postal service in Pakistan, postage prepaid, registered or certified, return receipt requested, addressed to the GOP, at the address indicated in Section 18.1 of the Implementation Agreement (or such other address as the GOP may have specified by written notice delivered in accordance therewith). No rescission or termination of this Agreement by the Seller shall be of any effect without such notice and expiration of such Cure Period. Except as provided by the terms of the Guarantee, the GOP may, but shall be under no obligation, to make any payment or to perform any act required of the Purchaser hereunder with the same effect as if the payment or act had been made or performed by the Purchaser. If the GOP fails to cure or is unable or unwilling to cure a default of the Purchaser within the cure periods provided to the Purchaser under this Agreement, the Seller shall have all of its rights and remedies with respect to such default as set forth in this Agreement; provided, however, that, with respect to any default of the Purchaser other than a payment default, if the GOP is diligently attempting to cure such default of the Purchaser and demonstrable progress toward affecting such cure is being made, the GOP shall be granted an additional period not exceeding ninety (90) Days to effect such cure before the Seller may exercise its rights and remedies with respect to such default set forth in this Agreement.

- (g) The Lenders or their designee may at any time following the delivery of a Succession Notice give the Purchaser notice terminating the Lenders' or their designee's obligations and rights under this Agreement (without affecting the continuation of the Seller's obligations towards the Purchaser thereunder). Such notice shall designate a date on which such obligations and rights will terminate and on and after such nominated date the Lenders or their designee shall be released from all obligations and liabilities under this Agreement (other than those obligations and liabilities which have arisen under this Agreement prior to such nominated date). Upon such nominated date, subject to the expiration of the applicable cure period provided in Section 16.5, the Purchaser may exercise without restriction all of its rights under this Agreement.
- (h) Without the requirement of obtaining any further consent from the Purchaser, upon the exercise by the Lenders or their designee of any of the remedies set forth in the Financing Documents, the Lenders may assign or transfer by novation their rights and interests and the rights of the Seller under this Agreement to any Transferee (hereinafter defined) so long as such Transferee shall assume in writing for the benefit of the Purchaser all of the obligations of the Seller under this Agreement, provided that the Transferee shall not be liable for any outstanding obligations under this Agreement which were not disclosed by the Purchaser to the Lenders or the Agent in accordance with Section 19.9(c) nor have any obligation to cure any Seller Event of Default that is not capable of being cured. Upon such assignment and assumption, the

Lenders and their designee shall be relieved of all obligations under this Agreement arising after such assignment and assumption.

- (i) Upon notice to the Purchaser from the Agent of the Lenders' assignment or transfer by novation to a Transferee, as set out in Section 19.9(h) above, the Purchaser shall effect the transfer of the Seller's rights and obligations under this Agreement to a Transferee.

- (k) With respect to all Seller Consents issued by the Purchaser or any Relevant Authority to the Seller, the Purchaser shall not, and the Purchaser shall ensure that no Relevant Authority shall, exercise any power under Section 5.2 of the Implementation Agreement unless the Lenders shall have first been given written notice of such failure (which notice shall specify, in reasonable detail, the nature of such failure) and the Lenders or their designee are given the opportunity and fail within a reasonable period of time after receipt of such notice to so rectify, remedy or cure such failure, which period shall not in any event exceed the cure period provided to the Seller or to the Contractors, as the case may be, under Section 5.2 of the Implementation Agreement. The Purchaser shall ensure that such transfer or re-issuance is made within the period of time, if any, prescribed by applicable Laws of Pakistan as applied in a non-discriminatory manner pursuant to Section 12.1 of the Implementation Agreement and, in any event, within one hundred and eighty (180) Days after the date of proper and complete application therefor. Provided that the Seller shall have requested in writing from a Relevant Authority its consent to any security interest in any

Seller Consent granted or to be granted by such Relevant Authority to the Lenders or the Agent and shall have diligently pursued obtaining the consent of such Relevant Authority to such security interest, the Purchaser hereby covenants and shall procure, or cause to be procured, that such Relevant Authority consents to the grant by the Seller to the Lenders or the Agent of a security interest in any such Seller Consent to the extent that such Consent is assignable to the Lenders or the Agent by way of security, and such security interest is available, under the Laws of Pakistan.

- (l) Upon notice to the Purchaser of a default under the Financing Documents, the Purchaser shall, at the request and expense of the Lenders or the Agent, cooperate with the Lenders in the exercise of such rights by the Lenders under this Agreement and the Financing Documents.
